## EXPERIENCE & LEADERSHIP

- **Samarth Dimond** Nov 2024 – Currently  
Software Developer On-Site – **Visnagar**
  - Currently working as a Software Developer at Samarth Diamond with expertise in full-stack development. Skilled in backend development using the Frappe Framework and frontend development with ReactJS to deliver efficient and scalable solutions.
- **Octanet service Pvt Ltd.** July 2023 – August 2023  
Web Developer Intern Remote - Bangalore
  - I had the privilege to work on diverse web development projects and expand my skills in HTML, CSS, JavaScript, and other cutting-edge technologies. The experience has been transformative, and I'm grateful for the invaluable knowledge and guidance provided by the talented team at @OctaNet Services Pvt Ltd.
- **Campus Ambassador** July 2023 – Feb 2024  
Techfest, IIT Bombay Remote - Bombay
  - Represent: Techfest at your college and act as a link between the students of your college and Techfest.

## PROJECTS

- ❖ **Sport-Guide | HTML, CSS, JavaScript, Tailwind CSS, Python, Django**

The Sports-Guide has been developed to streamline and enhance the organization and participation of sports activities, catering to both administrators and players. This project has successfully achieved its objectives by providing an efficient and user-friendly platform for sports enthusiasts.

  - Simplify the process of sports organization and participation for both administrators and players.
  - Enhance user experience by providing a user-friendly interface for session creation and management.
  - Provide administrators with insightful reports on sports session statistics.
  - Encourage user engagement and facilitate communication within the sports community.
  - This Website makes a better Team Using Recommendations.
- ❖ **Sport-Scheduler | HTML, CSS, JavaScript, Tailwind CSS, Node.js, PostgreSQL**
  - Through this system, users can register, log in, create and join sport sessions, and access valuable reports, ensuring a seamless and engaging experience. Administrators can easily manage sports categories, participate in sessions, and gather insightful statistics for informed decision-making
